

FP-4/2M

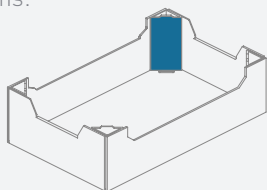

PREMIUM MAKE A DIFFERENCE

THE MULTIFUNCTIONAL MACHINE
TO FORM AND GLUE
CURRUGATED BOXES

FP-4/2M-1

Able to erect the following
box constructions:

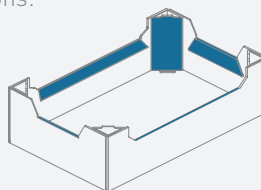

Column
C1

FP-4/2M-2

Able to erect the following
box constructions:

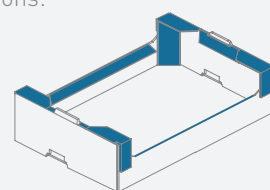

Column
Plaform
C1
Double wall
at all sides

FP-4/2M-3

Able to erect the following
box constructions:

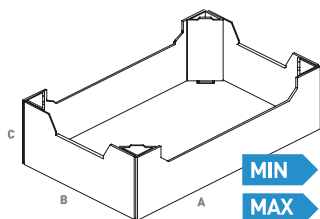

Column
Plaform
C1
P84
Citrus
Big Ear
Double wall at all sides

TECHNICAL SPECIFICATIONS

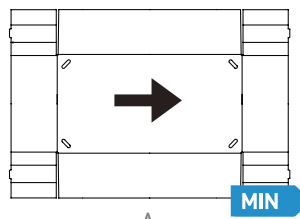

OPERATION	Mechanical, Electrical and Pneumatic
GLUE SYSTEM	By Injection, Hot-Melt Melton NC-16 (cap. 14 kg)
BOX DESIGN	Open column, Closed column, Plaform, P-84, Citrus Box
ESTIMATED PRODUCTION	From 1.100 to 2.100 T/h (6 speed)
TOTAL POWER	7,5 Kw
NETT WEIGHT	2.000 Kg.
ELECTRICAL SUPPLY	380/220 V (3f + N + PE) - 50/60 Hz
SIZE CHANGE	30-50 min. approx.
WORKING AIR PRESSURE	7 bar
AIR CONSUMPTION	525 L/MIN (2M1); 670 L/MIN (2M2); 700 L/MIN (2M3)
CHASSIS FRAME	4 mm steel Plate
MACHINE DIMENSIONS	L: 5.470 mm W: 1.640 mm H: 2.410 mm

TRAY / PLANO Dimensions

MIN 330 x 200 x 65 mm
MAX 600 x 600 x 250 mm

Height and base dimensions will depend on the blank dimension
If the dimensions are different, contact us for the possibilities

MIN 450 X 360 mm
MAX 1.300 x 1.100 mm

BOX POSSIBILITIES

If you have a different model, contact us for the possibilities

VARIOUS OPTIONS

STACKERS

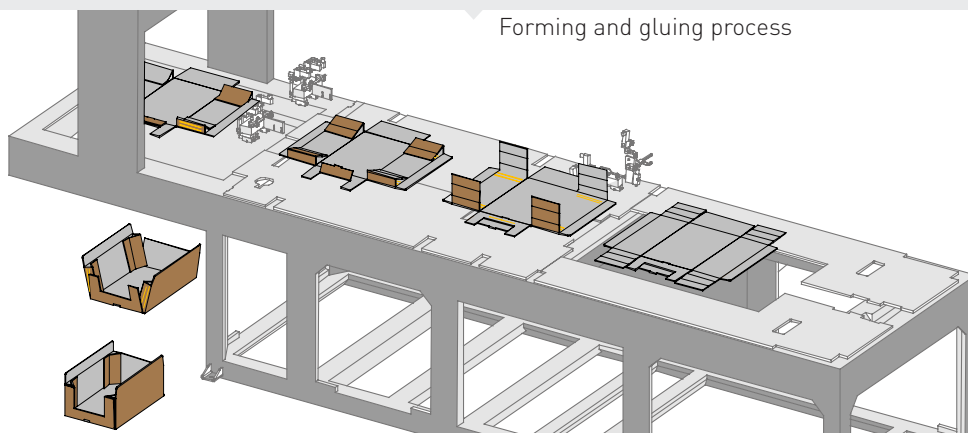

- Automatic machine to stack formed boxes
- Number of stacked trays automatically adjustable
- Various types of stackers and dimensions possible
- Able to change the exit direction in 3 different ways

PRE-FEEDER AND FILL-EASY

- Automatic supply of blanks to the standard feeder approx. 800 blanks (BE-corrugated)
- Automatic supply of Hotmelt and a constant control about the temperature of the glue
- Possible savings on labor, logistical operations and space
- Less chance of disturbances due to the steady supply of blanks and Hotmelt

Forming and gluing process
