

Powered Vial Crimper

Designed for 'Plain', 'Flip Top/Flip Off' and 'Flip Tear Up' Seals

Quick, Efficient & Reliable

- Get started immediately – available off-the-shelf, for delivery within days.
- Intuitive, tool-less assembly and set-up.
- Professional quality, repeatable crimping, up to 800 per hour.

Reduces Waste; Increases Profitability

- More consistent torque reduces your rejected object re-handling times, and also reduces waste through throwaways.

Space-Efficient

- Compact footprint – just 37 x 23 x 42cm – to conveniently fit on a small table.
- Crimping an equal number of vials manually, to an equal quality finish, could take up to 2-3 colleagues; potentially making the same production space up to 2-3 times less profitable!

Improved Safety & Comfort

- Foot pedal operation reduces operator fatigue and risk of Repetitive Strain Injury.

Buy Once – Buy Right!

- The hygienic, durable stainless steel stand and corrosion-resistant nickel electro plate crimper ensure this unit provides you extremely long service life, for the greatest possible return on investment.
