

Pita Bread Production Line

PT-5000

PT-5000 is a new customized production line. By changing different rolling cutters, different sizes of pita breads can be made. Especially designed for mass production food factories.

Feature

By cooperating with tunnel oven, and cooling conveyor. PT-5000 can be a fully automatic production line.

Special layered resting devices, can rest layers of dough belt to shorten resting time and to increase capacity.

Sheeting and pressing rollers make wrapper smoother and thinner. Texture of baked pita breads is better.
