

Pulverex™ 3 Series Pulverizer

Pulverex™ 3 Series

High grinding efficiency, even particle size distribution

Applications

The Pulverex™ 3 Series pulverizer aims to further break down material for fish feed, shrimp feed, petfood or any other young animal feed production.

Customer benefits

- Particle size adjustable during operation
- High throughputs and convincing economic efficiency
- High performance wearing parts with long lifetime
- Fast and easy maintenance, reduced downtime

Product features

- Particle size continuously adjustable during operation, ranging from 60 mesh to 200 mesh;
- Feeder integrates lump breaker to keep continuous feeding;
- New classifying impeller design promotes discharge, reduces over pulverizing and improves productivity;
- New deflector hood design follows hydrodynamics to reduce air resistance and energy consumption;
- New top cover design improves the pass rate of finished products and increases capacity;
- Two side open maintenance doors enable easy access for replacement of wear parts;
- A hydraulic cover-opening device is designed to ease labor.

Pulverex™ 3 Series

Technical data and dimensions

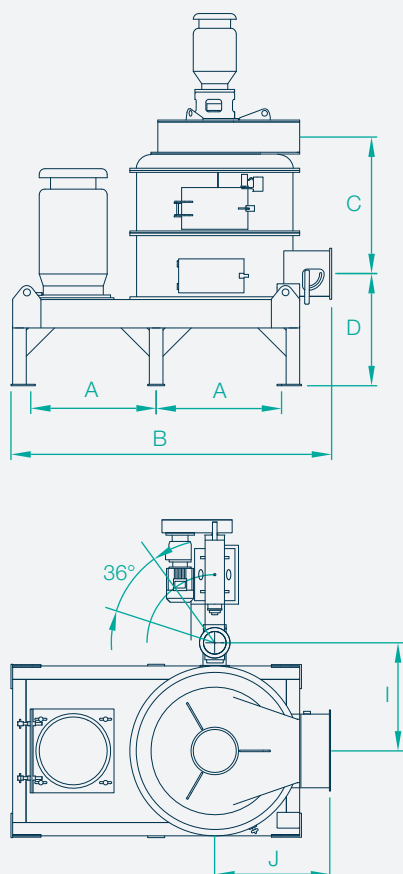

Technical data

Type	Throughput* (t/h)	Power (kw)
AHFL 82	1.0-3.0	75-90
AHFL 110	2.5-6.0	110-132
AHFL 130	3.0-8.0	132-160
AHFL 160	5.0-10	160-200

* Depending on raw material and required granulation

Dimension

Type	A	B	C	D	E	F	G	H	I	J
