COMECER

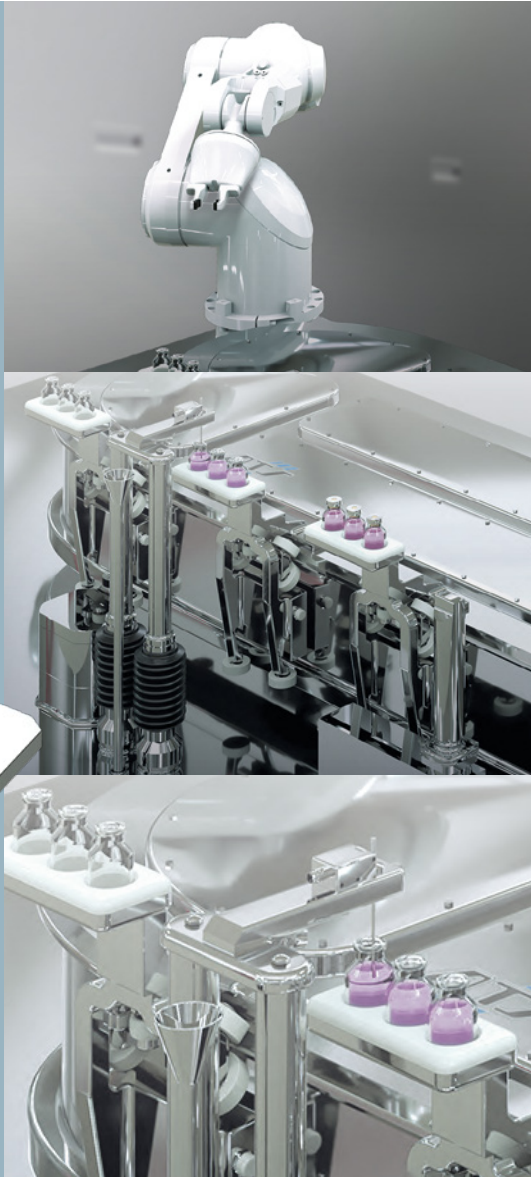

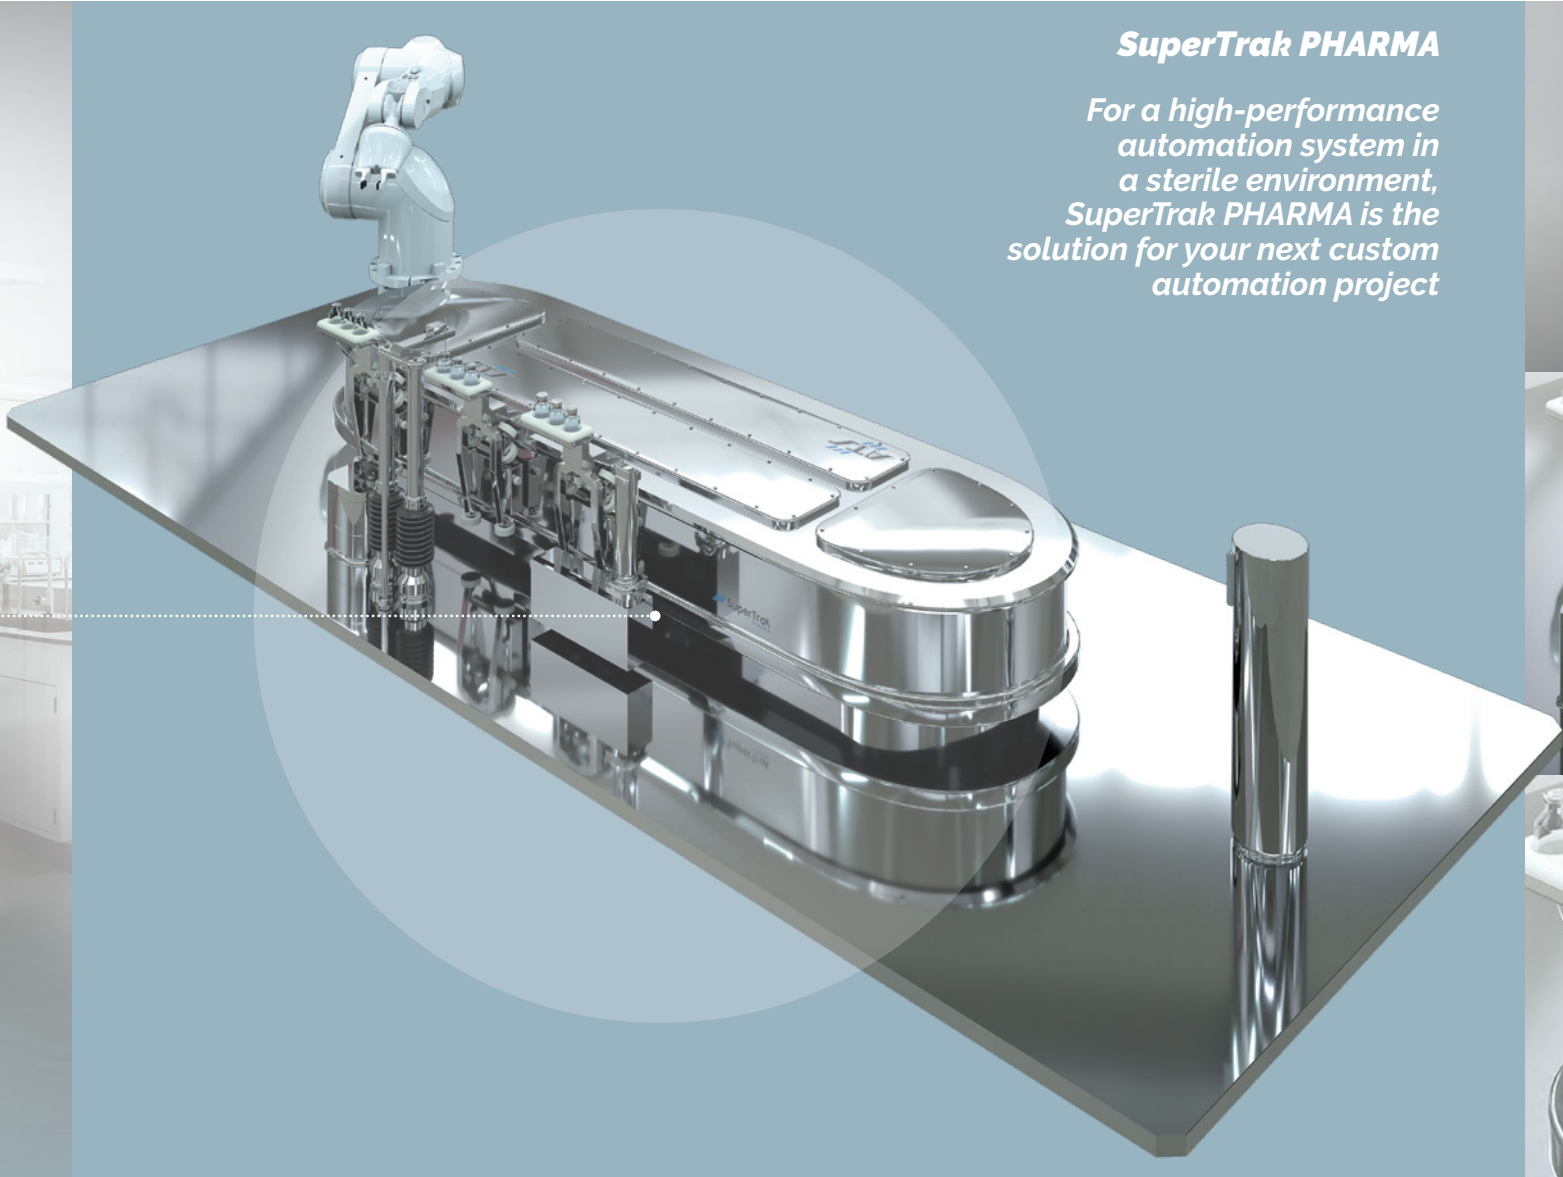

AN **ATS** COMPANY

Comecer Isolator

SuperTrak PHARMA

For a high-performance automation system in a sterile environment, SuperTrak PHARMA is the solution for your next custom automation project

The Comecer and ATS quality of workmanship and experience in isolation and aseptic technologies has been combined!

The end result is a solution that is state of the art, fully integrated, and up to date with the latest regulatory requirements including cGMP, FDA, CE, and UL.

The Comecer Isolator is designed to deliver aseptic conditions inside the machine processing area, to protect product sterility, and to safeguard operators from toxicity exposure.

CLEAN

Isolator with air quality complying with Grade A "In Operation" (EEC-cGMP)

Laminar airflow over the entire area and handling gloves

Integrated hydrogen peroxide generators (VPHP)

Reduced particle generation: minimal moving components

COMPACT

End-to-end solution that reduces the overall footprint

Ability to hand off to further processes and fit any orientation or layout

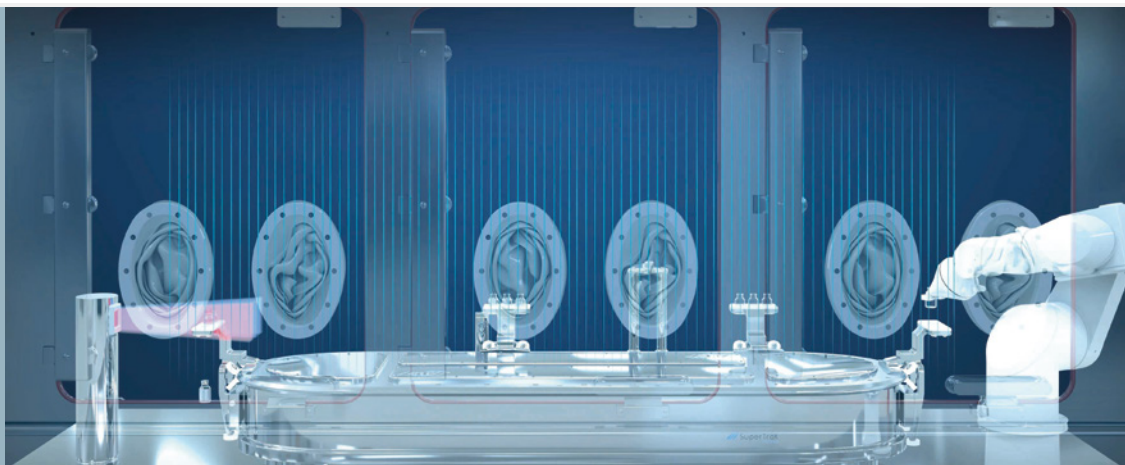

FAST

Speed up to 2.5 m/s (8.2 ft/s)

Acceleration up to 30 m/s²

Ideal for automated aseptic assembly of multi-component drug delivery devices

*Laminar
airflow over
the entire
working
surface*

Technical data

Shell structure	AISI 316 L
Stainless steel finish	external: Scotch-Brite internal: Mirror-Brite
Air classification	class A (after decontamination)
Maximum Speed	2.5 m/s (8.2 ft/s)
Acceleration	up to 30 m/s ²
Payload	5 kg (11 lb) per shuttle
Stop Repeatability (Straight Section)	± 0.01 mm (0.00039 in)
Stop Repeatability (Turn)	± 0.025 mm (0.001 in)
Communication	Ethernet / IP, Profinet, Powerlink, and EtherCAT
Power Consumption	10 W / section, 150-225 W / shuttle
