MANUFACTURER OF
HIGH QUALITY
COFFEE ROASTERS

GIESEN[®]
coffee-roasters

THE GIESEN STORY

With complete devotion, we aim to produce high quality coffee roasters that offer you the possibility to roast beans with more control than any other coffee roaster. By implementing new technology and focusing on developments in the industry, our team take craftsmanship to the next level.

W45A

A complete solution for wholesale production

- » **BEAUTIFULLY ENGINEERED**
To ensure a fast, easy and efficient roasting process.
- » **ADVANCED TECHNOLOGY**
Plan, repeat and save your roasting profile with our built-in Roast Profile System. More options included. Free of charge.
- » **CAPACITY**
With a capacity of 45 kg per batch/ 180kg/h the roaster is well equipped for industrial purposes.

SPECIFICATIONS

		
Capacity	Gastype	Weight
22,5 - 45 kg	Natural & Propane	1800 kg
		
Power	Exhaust	Certificates
400 V - 50/60 Hz 3-phase	2 x 200 mm	CE

PRODUCTIVITY

The W45A coffee roaster can be operated completely automatically. The standard working steps are automated to ensure a fast, easy and efficient roasting process. With a green coffee conveyor, the green beans are being poured automatically into the hopper and will subsequently be released into the

roasting drum. After the roast, the roasted coffee beans will be poured into the cooling fan. This fan has a high cooling capacity of 3 minutes to cool down a whole batch of 45 kg coffee beans. At the same time, during the cooling phase, new green beans can be released into the drum for the next roast.

WHAT OUR CLIENTS SAY ABOUT OUR W45A:

"We decided to use a Giesen because the technology employed by their machines is always advancing. I am particularly happy with the shape of the drum, style and heat retention. The Giesen team is always happy to take feedback from industry professionals and apply newly developed technology in order to keep advancing and building better roasters.." - Sasa Sestic
