

A452F

CARTONING MACHINE FOR CHEESE

FLEXIBLE AND DEPENDABLE

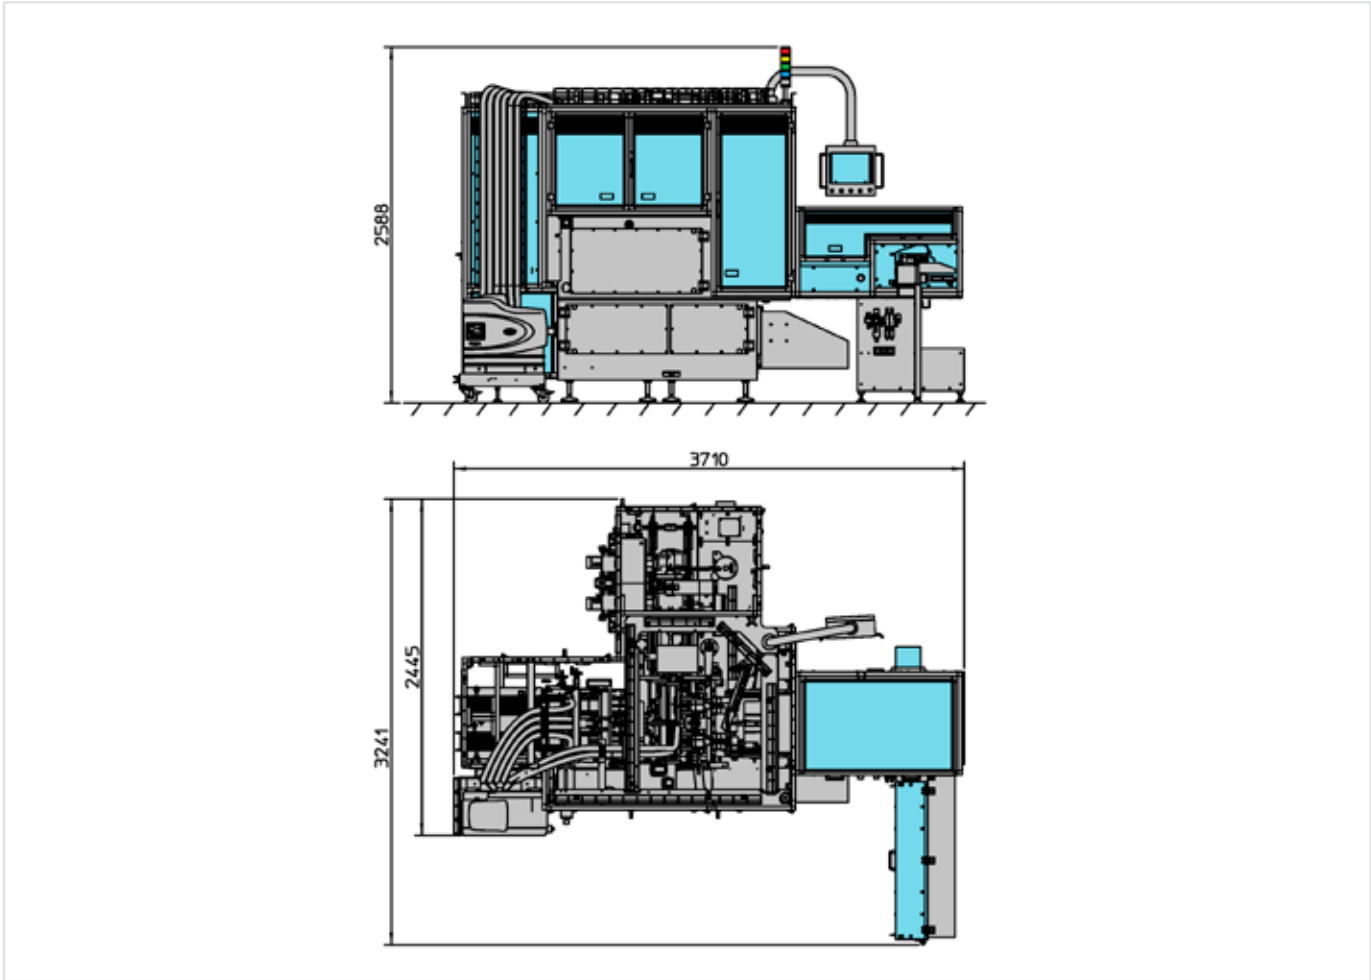

Designed for the cartoning of square and rectangular portions of processed, fresh or cream cheese, the A452F is a highly reliable and flexible solution.

According to customer's requirements, the A452F cartoner can be supplied with various types of infeed sections, depending on the product to be handled and on the requested pack configuration.

The machine uses flat blank cartons which are formed around the product during the loading operation.
