

Food Processing Plants

Sugar continuous dissolvers

The innovative models of CSD dissolvers enables the continuous break-up of sugar up to 70°Bx thus saving 50% of power compared to traditional plants. The HTST pasteurization system and the filtration system fitted on the unit complete the equipment thus offering a compact, efficient and reliable solution.

Absolute accuracy: $\pm 0,1^{\circ}\text{Bx}$.

In line filtration group.

Integrated HTST pasteurization system with
high efficiency heat recovery system.
