

# Turbo Separator

DDG De-Agglomeration

## Improve your process with a Scott Reel Scalper

The Scott Turbo Separator is an ideal addition for ethanol production systems. Remove problematic agglomerates while increasing the value of DDGs at loadout.

### FEATURES:

- Eliminates agglomerates caused during bin storage
- Removes sharp angles from individual particles to create a free-flowing product
- Secondary discharge to remove screen-damaging contaminants
- Increased product value at loadout

### IDEAL APPLICATIONS

- Ethanol
- Distillery

### INDUSTRIES

- Ethanol
- Distillers
- Brewers
