

Endload Cartoner CAM

Viking Masek's CAM cartoners are fully servo driven, automatic continuous or intermittent endload cartoners, carefully designed to match specific applications on exact speed and size range requirements.

**max.
speed**

| | |
|------------------|-------------------|
| intermittent | continuous |
| 60 cpm | 240 cpm |

**carton
size**

intermittent
max: 400×600×300mm
min: 50 × 80 × 30 mm

continuous
max: 225×300×100mm
min: 50 × 80 × 20 mm

Endload Process

Endload Cartoner CAM In Detail

Viking Masek endload cartoning solutions are carefully designed to match customers' applications based on speed and size-range requirements. The CAM cartoner is a fully servo driven, highly flexible, economical and robust cartoner. The continuous or intermittent motion modes permit compact layouts, simple change-overs and a broad range of applications. Featuring easy change-over, various closure systems and product feeders, our customized solutions ensure guaranteed performance.

Max. speed

i: 60 cpm
c: 220cpm

Air pressure

6 bar

Weight

1500–2500 kg

Power supply

i: 8–12 kVA
c: 15 kVA

features

- Hot melt, hot air systems or tuck closure
- Easy format change-over
- Inclined carton magazine
- Controlled carton supply
- Servo drives
- Rugged stainless steel construction
- Vacuum pump included
- Jogging control
- Safety guarding
- Off-the-shelf components
- Siemens or Allen Bradley controls
- IP54
- Excellent accessibility
- Ergonomic design

options

- Various styles of closure systems
- Fully motorised size change-over
- Damaged carton rejection
- Open flap rejection
- Different frame sizes to accommodate large carton range
- Remote control
- Extended carton magazine
- Special electronics and voltages
- IP65 washdown construction
- Various types of feeders
